EXAMPLE: M in Middle Crown Farm

EASTING		NORTHING	
Take west edge of 100 metre square in which point lies and read the figures opposite this line on the north or south margin	501	Take south edge of 100 metre square in which point lies and read the figures opposite this line on the east or west margin	220
Estimate tens of metres from grid line to the point	8	Estimate tens of metres from grid line to the point	3
