Statement of Publicity and
Consultation (2005)

April 2005

South Holland Local Plan Re-Deposit - 2005

Statement of Publicity and Consultation

From First Deposit Draft stage (2001) to Re-Deposit stage (2005)

This statement is a summary of the actions taken by South Holland District Council since the consultation period for the First Deposit Draft in 2001.

We have prepared this statement to be made available for inspection with the Re-Deposit plan proposals when they are deposited in accordance with regulation 24A.

Response to the First Deposit Draft.

A total of 347 individuals or groups made representations to the Plan within the six week consultation period. In addition, a further 17 individuals and groups made representations outside the consultation period. Overall there were 700 objections, 270 statements of support and 60 general comments made. At a special meeting of the Strategic Planning Committee on 12 March 2002 it was decided that the late representations should not be considered, but reference should be made to them for the Inspector's benefit when a public inquiry is held (minute 125/02 refers).

A Background Paper 'Statement of Pre-Deposit Publicity and Consultation' (October 2001), available for inspection at the same time as the First Deposit Draft, details the pre-deposit consultation carried out on the review of the South Holland District Local Plan by way of an Issues Paper.

Working towards a Re-Deposit Plan

An initial timetable for the production of a second (revised) draft was taken to the Strategic Planning Committee on 12 March 2002. It was envisaged that a second (revised) draft would be published July/August 2002 (minute 126/02 refers).

There has since been considerable slippage in the timetable for the production of a second (revised) draft. This has been the result of a variety of contributory factors, which have been documented in reports to Cabinet. Reports and minutes are available to view at the Council Offices. Key factors include:

- The need for a Strategic Flood Risk Assessment of the District to inform future planning.
- The call-in of planning applications for housing at Holland Park and Wygate Park, Spalding for consideration by the Deputy Prime Minister, these having significance for the strategy of the Plan.
- Uncertainty about the strategic housing requirements for the District following the publication of Regional Planning Guidance for the East Midlands (RPG8) which reduced the new housing for Lincolnshire.
- The Government's proposals contained within the Planning & Compulsory Purchase Bill, to change the planning system including replacing Local Plans with Local Development Frameworks.

Other work undertaken has been the development of policies on the high profile issues of Wind Energy and Affordable Housing into Supplementary Planning Guidance (SPG). A Draft Wind Energy SPG was publicly consulted on during November and December

2003 for a six week period, during this consultation 32 individuals and groups made comments. The SPG was approved by Cabinet at its meeting on 16 March 2004 (minute C136 refers). A Draft Affordable Housing SPG was publicly consulted on during January and February 2004, during this consultation only 26 responses were received, but these had come from a range of types of respondent. The SPG was approved by Cabinet on 18 May 2004 (minute C11 refers) with Interim Affordable Housing Statements approved by a special meeting of the Council on 26 May 2004.

At a meeting of the Local Plan Working Party on 27 October 2003 it was agreed that the option of 'saving' the current emerging Local Plan for progression to second deposit be recommended to Cabinet. This recommendation was subsequently included in a report by the Head of Planning and Development to Cabinet on 11 November 2003, and members agreed that the possibility of progressing the Local Plan be discussed with the Planning Inspectorate with a view to following this route (minute C61 refers). The decision to re-deposit the entire plan for a period re-aligned with that of the Local Development Framework was taken at a meeting of the Cabinet on 13 April 2004 (minute C148 refers).

A report to Cabinet on 11 November 2003 set out the options for evolving the Spatial Strategy from the First Deposit Draft to the new Plan. Three options were set out for consideration, a) Emphasis on Spalding with minimal growth elsewhere, b) Emphasis on Spalding but with significant levels of growth also provided elsewhere in the long term, and c) Less emphasis on Spalding than implied by the First Deposit Draft, with more spread of growth across the District. It was decided that for the purpose of evolving the spatial strategy emphasis be placed on Spalding but with significant levels of growth provided for elsewhere in the long term (albeit on a smaller scale), to be within the 'Market Towns and Donington' group (minute C61 refers).

The responses received during the consultation period for the First Deposit Draft were considered in line with the decision of the Strategic Planning Committee. The issues raised in the representations received were initially considered by the Local Plan Working Party at meetings on 27 October and 25 November 2003, along with issues that Members and Officers had highlighted. Initial draft policies were taken to Cabinet on 7 September 2004 for approval. At this meeting the policies were agreed, and it was decided that the Local Plan Working Party should be consulted further to make any necessary minor changes to policies (minute C65 refers). Two further meetings of the Local Plan Working Party took place, the first on 29 September 2004 and the second on 7 October 2004. At these meetings final issues relating to allocations of land and the policies of the plan were discussed, and resolved for recommendation to Cabinet, having regard to current strategic issues, the extension of the plan period to 2021 and options for longer term growth.

The final draft policies were taken to a special meeting of the Cabinet on 26 October 2004 for its consideration. Following Cabinet approval (minute C86 refers), the draft Re-Deposit Plan was taken to a meeting of the Council on 10 November 2004 and it was, with some changes approved for publication for 're-deposit' (minute 277 refers).

Publicity for the Local Plan Re-Deposit.

In the weeks preceding the Re-Deposit Plan going out for consultation a double page article was placed in the District Council's magazine 'South Holland Now' March 2005 edition to raise the awareness of the Local Plan among the public, and to let them know that there would be a public consultation period in the near future.

A series of Community Consultation Roadshows are being undertaken during April and May at venues around the District as a part of the Community Plan consultation. The Local Plan Team are also participating in these to raise awareness of the Re-Deposit Plan, and the consultation period. Two of these roadshows have been before the start of the consultation period, and have been for publicity, there are a further 4 during the consultation period.

Publication of the Local Plan Re-Deposit

The Re-Deposit Plan is to be formally placed on deposit for consultation on 21 April 2005 for a six week period ending 2 June 2005.

A public notice will appear in the Spalding Guardian on 21 April 2005 announcing the start of the consultation, there will also be a more in depth article on the Re-Deposit Plan following a press release and a press launch. The public notice will appear for a second week on 28 April 2005. The Public notice will also appear in the Lincs Free Press on 26 April and 3 May 2005, and in the London Gazette on 21 April 2005.

To conform with the transitional arrangements that the District Council is following the Re-Deposit Plan has to be made available in the same locations as the previous version of the Plan. Therefore the Re-Deposit will be available to view at the District's libraries, and at the Council Offices for viewing and to purchase. A copy of the Plan will also be available to view at the Market House, Long Sutton following the opening of the Customer Services Centre (expected to be early May). The Plan will also be available for the first time on our website www.sholland.gov.uk

Each person or group that made a representation to the First Deposit Draft, and all statutory consultees, will be written to, informing them of the Re-Deposit Plan and where it can be viewed. Those who made objections previously will be invited to tell us whether their objections have been satisfied, although any part of the plan can be commented on at this time.

We are making arrangements for consultation events with our Developers Forum and with Parish Councils.

Representations to the First Deposit Draft

The following schedule itemises the list of the representations submitted during consultation to the First Deposit Draft Local Plan (2001). The schedule has been prepared on a topic-by-topic basis with a summary of representations. The comments indicate the Council's response.

The headings used in the table are summarised below:

- REP1: Unique reference given to each group/individual who submitted representations.
- REP2: Sub set of reference numbers attached to main representation reference, one for each representation received.
- S/O/C: Support/Objection/Comment.
- TOPIC: Based upon the chapter headings of the Local Plan namely:
 - Strategies of the Local Plan (STR)
 - General Development Criteria (GEN)
 - Policies of the Conservation and Enhancement of the Built Environment (BE)
 - Policies of the Conservation and Enhancement of the Natural Environment (NE)
 - Policies for Housing (H)
 - Policies for Shopping and Town Centres (STC, M)
 - Policies for Employment (EMP)
 - Policies for Leisure, Recreation and Tourism (LT)
 - Policies for Transport and Communications (T)
 - Implementation and Monitoring of the Plan (IMP)
 - Appendices (APP)
- POLICY: The policy number within the topic chapter.
- INSET: Refers to inset maps produced with the Local Plan.
- PARA: Paragraph numbers used within the Local Plan.
- SUBJECT: Summary of representation received.
- COMMENT: Comment indicating Council's response.
