

Made and published by the Director General of the Ordnance Survey, Southampton.

**COMPILED DATA**

Levelled.....1966  
(b) Dec 1971

Boundaries.....Mar 1972

1:2500 scale  
(a) Surveyed.  
(b) Reconstructed from former County Series plans and revised.  
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

**HEIGHTS** are given in METRES above the Newlyn Datum.  
Bench mark lists which may contain later levelling information, also particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

**SYMBOLS**

|                      |  |                               |
|----------------------|--|-------------------------------|
| Non-coniferous trees | Slopes                                 | Size of antiquity             |
| Coniferous trees     | Cave entrance                          | Culvert                       |
| Orchard trees        | Rock                                   | Direction of water flow       |
| Copice, oaks         | Boulders                               | Electricity pylon             |
| Scrub                | Sloping masonry                        | Electricity transmission line |
| Bracken              | Roofted building                       | Triangulation station         |
| Marsh                | Glasshouse                             | Traverse station (permanent)  |
| Marsh, saltings      | Archway                                | Bench mark                    |
| Reeds                | Change of boundary marking             | Revision point                |
| Revisions            | Revision point & bench mark coincident |                               |

**VEGETATION CLASSIFICATION** Where space permits, tree and shrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or shrub.

**BOUNDARIES**

| England & Wales        | Scotland               |
|------------------------|------------------------|
| Geographical County    | Geographical County    |
| County Borough         | County Council         |
| County of the City     | County of the City     |
| County District        | County District        |
| Civil Parish           | Civil Parish           |
| Rural Borough          | Rural Borough          |
| Borough Council & Ward | Borough Council & Ward |
| County Council & Ward  | County Council & Ward  |
| County Council & Ward  | County Council & Ward  |

Where the boundary of an Admin Co. County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. *Borough Council & Parish*, *County Council & Parish*, *County Council & Parish*.

**NATIONAL GRID REFERENCE**

The grid lines form part of the national grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows—

**EASTING** Take west edge of 100 metres square in which point lies and read the figures opposite this line on the north or south margin. Estimate tens of metres from grid line to the point.

**NORTHING** Take south edge of 100 metres square in which point lies and read the figures opposite this line on the north or south margin. Estimate tens of metres from grid line to the point.

**TEN METRE REFERENCE** TF 2031-2131
