

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

1:2500 scale
(b) 1:1250 scale (photographically reduced)

Levelled.....1966
Boundaries.....Sep 1976

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lines, which may contain later levelling information and particulars of bench marks to which no value has been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is not evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

0.91m = 3ft 1 1/2in = 4ft

1.22m = 4ft

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

Area measurements in this plan are only approximate. The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
1.079ha area in hectares
2.644 acres area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. The number and area, in hectares (ha) and acres, is shown within each parcel of land.

Limit of area within which individual parcels are not shown

To convert hectares to acres multiply by 2.471 05

To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number.....TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....058

3. Take the east edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291

4. The full ten metre reference is given by writing first the letters, followed by the figures and then by the Northings.....TQ 0582914

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
