

COMPILE DATA  
 Levelled: 1965  
 Boundaries: Feb 1972  
 M.H.W.: 1971

1:2500 scale  
 1:1250 scale (photographically reduced)  
 (a) Surveyed.  
 (b) Reconstructed from former County Series plans and revised.  
 (c) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.  
 Bench mark lists which may contain later levelling information, also particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
 The representation of a road on this plan is evidence of the existence of a right of way.  
 The alignment of tunnels where shown is approximate.

- VEGETATION CLASSIFICATION. Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

- BOUNDARIES
- |                        |                        |                        |                        |
|------------------------|------------------------|------------------------|------------------------|
| England & Wales        | Geographical County    | County Council         | County of the City     |
| County Borough         | County Council         | County of the City     | Borough                |
| London Borough         | County District        | Civil Parish           | Rural Borough          |
| County District        | Civil Parish           | Rural Borough          | Borough Council & Ward |
| Civil Parish           | Rural Borough          | Borough Council & Ward | Co. Const. & Ward      |
| Rural Borough          | Borough Council & Ward | Co. Const. & Ward      | Co. Const. & Ward      |
| Borough Council & Ward | Co. Const. & Ward      | Co. Const. & Ward      | Co. Const. & Ward      |

- Where the boundary of an Admin. Co., County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g.

- BOUNDARY MEASUREMENTS
- |        |                          |      |                        |      |                     |      |                 |
|--------|--------------------------|------|------------------------|------|---------------------|------|-----------------|
| B.B.   | Base of Bank             | C.R. | Centre of Road, etc.   | F.F. | Face of Fence       | T.B. | Top of Bank     |
| C.B.   | Centre of Bank           | C.S. | Centre of Stream, etc. | F.W. | Face of Wall        | T.H. | Top of Hedge    |
| C.C.S. | Centre of Covered Screen | Def. | Defilade               | R.H. | Root of Hedge       | T.S. | Track of Stream |
| C.D.   | Centre of Drain, etc.    | E.K. | Edge of Kerb           | S.A. | Side of River, etc. | Und. | Undefined       |

- AREAS
- area measurement is to plan edge only.  
 The number and area, in hectares (ha) and acres, is shown within each parcel of land.  
 Enclosures or features joined for measurement of area.  
 EXAMPLE: 1 800ha 4.47 acres  
 4.47 acres in acres
- When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area.  
 Limit of area within which individual parcels are not shown.  
 To convert hectares to acres multiply by 2.471 05.  
 To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the national grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows—

| EASTING                                                                                                                      | NORTHING                                                                                                                    |
|------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Take west edge of 100 metre square in which point lies and read the figures opposite this line on the north or south margin. | Take south edge of 100 metre square in which point lies and read the figures opposite this line on the east or west margin. |
| Estimate tens of metres from grid line to the point.                                                                         | Estimate tens of metres from grid line to the point.                                                                        |
| EXAMPLE: 388                                                                                                                 | EXAMPLE: 292                                                                                                                |
| 388                                                                                                                          | 292                                                                                                                         |
| 387                                                                                                                          | 291                                                                                                                         |
| 386                                                                                                                          | 290                                                                                                                         |
| 385                                                                                                                          | 289                                                                                                                         |
