

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

1:2500 scale (photographically reduced)
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Surveyors of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is only evidence of the existence of a right of way.
The alignment of tunnels where shown, is approximate.

AREAS

Area measurement is in plan area only.
Enclosures or features joined for measurement of area.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 42.67 parcel number
1-8079ha area in hectares
4-47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Limits of area within which individual parcels are not shown.
To convert hectares to acres multiply by 2.471 05.
To convert acres to hectares multiply by 0.404 69.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0559

1. Take the two letters preceding the sheet number	TQ
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin	058
3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin	291
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing	TQ 0580291
