

| ABBREVIATIONS |                               | SYMBOLS |                         |
|---------------|-------------------------------|---------|-------------------------|
| B.H.          | Beer House                    | P.T.P.  | Police Telephone Pillar |
| B.M.          | Bench Mark                    | R.H.    | Road House              |
| B.P.          | Boundary Post                 | R.P.    | Revision Point          |
| B.S.          | Boundary Stone                | S.      | Stone                   |
| C.            | Crane                         | S.B.    | Signal Box              |
| C.H.          | Club House                    | S.Br.   | Signal Bridge           |
| Cn.           | Capitan                       | S.D.    | Sundial                 |
| Dk.           | Drinking Fountain             | S.L.    | Signal Light            |
| E.P.          | Electricity Pole or Post      | Sl.     | Sluice                  |
| E.T.L.        | Electricity Transmission Line | Spr.    | Spring                  |
| F.A.          | Fire Alarm                    | S.Sta.  | Signal Station          |
| F.B.          | Fire Bell or Fire Bridge      | T.C.B.  | Telephone Call Box      |
| F.M.          | Fundamental Bench Mark        | T.P.    | Telephone Call Post     |
| F.S.          | Flagstaff                     | T.R.    | Track or Trough         |
| G.C.          | Guide Post                    | T.S.    | Traverse Station        |
| G.V.C.        | Gas Valve Compound            | W.      | Well                    |
| H.            | Hedgeline or Hydraulic        | Wd.P.   | Wind Pump               |
| Ha.           | Hectares                      | Wk.     | Works                   |
| L.B.          | Letter Box                    | W.P.    | Water Point             |
|               |                               | W.T.    | Water Tap               |

| SYMBOLS              |                    | SYMBOLS                                |                       |
|----------------------|--------------------|----------------------------------------|-----------------------|
| Non-coniferous trees | Coniferous trees   | Site of antiquity                      | Cave entrance         |
| Orchard trees        | Orchard trees      | Direction of water flow                | Electricity pylon     |
| Copse, osier         | Copse, osier       | Electricity Transmission Line          | Triangulation station |
| Scrub                | Scrub              | Traverse station (permanent)           | Bench mark            |
| Bracken              | Bracken            | Surface level                          | Revision point        |
| Glasshouse           | Glasshouse         | Revision point & bench mark coincident |                       |
| Archway              | Archway            |                                        |                       |
| Change of boundary   | Change of boundary |                                        |                       |

Made and published by the Director General of the Ordnance Survey, Southampton.

**AREAS**  
Area measurement is to plan edge only.  
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 ..... parcel number  
1-807ha ..... area in hectares  
4-47 ..... area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.  
Enclosures or features joined for measurement of area .....  
Limit of area within which individual parcels are not shown .....  
To convert hectares to acres multiply by 2.471 05  
To convert acres to hectares multiply by 0.404 69

**NATIONAL GRID REFERENCE**  
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number ..... TQ 058  
2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin ..... 292  
3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin ..... 058  
The resulting four figure number is the National Grid Reference.  
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing. TQ 058914  
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
