

to increase to acres multiply by 2.47105
to convert to hectares multiply by 0.4047

NATIONAL GRID REFERENCE

The National Grid and areas at 100 metre intervals. To give a location of a point to within 10 metres proceed as follows:-

EXAMPLE:

Letters in figures or grid line	Workings	Grid Reference
479	Take the hundred (00) metre square in which point lies and read the figures opposite this line on the east or west margin	211
473	Estimate the tens of metres from grid line to the point	0
		210

GRID REFERENCE **TF 493210**

Information see "An Introduction to the Projection Survey Maps and the National Reference System."

VEGETATION CLASSIFICATION. Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate a close, medium, open or scattered density of trees or scrub.
