

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILATION DATA

Levelled.....1965
Boundaries.....Nov 1977

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way. The alignment of a road where shown is approximate.

		W.B.	Windmill
		Wd.P.	Wind Pump
		Wks.	Works
		W.P.	Water Point
		Wt.	Water Tap

SYMBOLS

BOUNDARIES

AREAS

Area measurement is to plan only. The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267..... parcel number
1-809ha..... area in hectares
4-47..... area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls. Enclosures or features joined for measurement of area.....
Limit of area within which individual parcels are not shown.....
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:-

1. Take the two letters preceding the sheet number. EXAMPLE from sheet TQ 0529
TQ 058
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin. 058
3. Take the east edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin. 291
4. The full 10 metre reference is given by writing first the letters, followed by the figure from the north or south margin, then the figure from the east or west margin. TQ 0582916
For further information see 'An introduction to the Projection for Ordnance Survey Maps and the National Reference System'
