

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

COMPILED DATA

Levelled.....1965
Boundaries.....Oct. 1977

1:2500 scale
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

BOUNDARIES

England & Wales County District London Borough Civil Parish (England) Community (Wales) Electoral Division Ward Constituency (Co or Boro)	Scotland Region or Islands Area District No shown Electoral Division Ward Constituency (Co or Boro)
--	--

COINCIDENT BOUNDARIES are shown by the first appropriate symbol above, e.g. Boro Const & E.D. Bdy.

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

Imperial equivalents for metric boundary measurements
0.91m = 3ft 1.22m = 4ft

AREAS

Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 1.0000 ha 2.471 acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area.
Limit of area within which individual parcels are not shown.
To convert hectares to acres multiply by 2.47108
To convert acres to hectares multiply by 0.40469

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number: TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin: 058

3. Take the east edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin: 291

4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing: TQ 058291
