BOUNDARIES

England & Wales	Scotland
County	Geographical County
District	County Council
London Borough	County of the City
Civil Parish	Burgh
Community (Wales)	District Council
Electoral Division	Civil Parish
Ward	Burgh Council
Partly Constituency	Partly Constituency & Ward

Where boundaries coincide the symbol shown is the first applicable in the table above, e.g. Borough & E.D. Bdy.

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

New boundary symbols adopted for England and Wales 1974.

Imperial equivalents for metric boundary markings

91m = 316

122m = 416

AREAS

Area measurement is to plan only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE:

4267 parcel number

1.809ha area in hectares

4.47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features joined for measurement of area.

Limits of area within which individual parcels are not shown.

To convert hectares to acres multiply by 2.47105.

To convert acres to hectares multiply by 0.40469.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number..... TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058

3. Take the east edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin..... 291

4. The full four figure number is the Northing..... 058291
