

Made and published by the Director General of the Ordnance Survey, Southampton.

1:2500 scale
1:1250 scale (photographically reduced)

Levelled..... 1965
Boundaries... Nov 1977

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is evidence of the existence of a right of way. The alignment of tunnels where shown is approximate.

CONVERSION SCALES

HECTARES-ACRES

1 hectare = 2.471 acres

1 acre = 0.4047 hectares

1 metre = 3.2808 feet

1 foot = 0.3048 metre

SYMBOLS

Non-ferrous trees

Coniferous trees

Surveyed trees

Orchard trees

Coppice, over

Scrub

Heath

Bracken, rough grassland

Marsh

Saltings

Reeds

Slopes

Cliff

Cave entrance

Rock

Boulders

Sloping masonry

Roaded building

Glasshouse

Archway

Surface level

Revision point

Revision point and bench mark coincident

Change of boundary marking

AREAS notes

BOUNDARIES

ENGLAND & WALES

County

District

London Borough

Civil Parish (England)

Community (Wales)

Electoral Division

Ward

Constituency (Co or Boro)

SCOTLAND

Region or Islands Area

District

Not shown

Electoral Division

Ward

Constituency (Co or Burgh)

COINCIDENT BOUNDARIES

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

COINCIDENT BOUNDARIES

For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

BOUNDARY MEASUREMENTS

C.R. Centre of Road, etc. | F.F. | Face of Fence | T.B. | Top of Bank || C.B. | Centre of Bank | C.S. | Centre of Stream, etc. | F.W. | Face of Wall | Ts.H. | Track of Hedge |
| C.C.S. | Centre of Covered Stream | E.K. | Edge of Kerb | R.H. | Root of Hedge | Und. | Undefined |
| C.D. | Centre of Drain, etc. | S.R. | Side of River, etc. | | | | |

AREAS

Area measurement is to plan edge only.

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 1-809ha area in hectares

4-47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.

Enclosures or features joined for measurement of area 1

Limit of area within which individual parcels are not shown 1

To convert hectares to acres multiply by 2.471 05

To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 0539

1. Take the two letters preceding the sheet number..... TQ 058

2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin..... 058

Estimate tens of metres from the grid line to the point (distance in)..... 8

The resulting four figure number is the Easting..... 0588

3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin..... 291

Estimate tens of metres from the grid line to the point (distance in)..... 6

The resulting four figure number is the Northing..... 2916

4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing..... TQ 05882916
