

Made and published by the Director General of the Ordnance Survey, Southampton

† 1:2500 scale * 1:1250 scale (photographically reduced)

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

BOUNDARIES

The diagram illustrates various boundary types and symbols used in Ordnance Survey County Boundary maps. It shows boundaries between England & Wales, Scotland, and the Republic of Ireland. The symbols include County, District, Civil Parish (England), Community (Wales), Electoral Division, Ward, and Consistency (Co or Boro). It also shows symbols for Borough, County, Borough, and County Borough. A legend at the bottom explains the symbols for Boundary meetings, Face of Fence, Track of Hedge, Top of Bank, Track of Hedge, and Track of Stream.

Legend:

B.B.	Base of Bank	C.R.	Centre of Road, etc.	F.F.	Face of Fence	T.B.	Top of Bank
C.P.	Centre of Parish	C.S.	Centre of Stream	F.W.	Face of Wall	T.H.	Track of Hedge
C.C.S.	Centre of Covered Stream	D.K.	Delimited	R.H.	Roof of Hedge	T.S.	Track of Stream
C.D.	Centre of Drain, etc.	E.L.	Edge of Lough	S.R.	Side of River	Und.	Undefined

Boundary meetings

Imperial equivalents for metric boundary meetings

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

EXAMPLE from above Table 1

1. Take the two letters preceding the sheet number TQ 058
2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin 292
3. Estimate cents of metres from the grid line to the point (distance) 8
4. The resulting four figure number is the Easting 2928
5. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin 291
6. Estimate cents of metres from the grid line to the point (distance) 058
7. The resulting four figure number is the Northing 291058
8. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing TQ 058291058

For further information see "An introduction to the Projection for Ordnance Survey Maps and the National Grid".
