Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

Where the boundary of an Admin. Co., County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g. Co. Cont. & Dist. Bdy.

AREAS

Area measurement is in plan area only.  
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number  
1-809ha area in hectares  
4-47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.  
Enclosures or features joined for measurement of area.  
Limits of area within which individual parcels are not shown.

To convert hectares to acres multiply by 2.471 05  
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number—TQ  
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin—058  
3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin—291  
4. The full ten metre reference is given by writing first the letters, then the figures opposite this line on the east or west margin—TQ 058 291

The resulting four figure number is the Easting and the Northing.
