

PLAN TF 1812-1912

© Crown copyright 1974

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

1:2500 scale

1:1250 scale (photographically reduced)

Levelled.....1965

Boundaries.....Oct 1973

(a) Surveyed.

(b) Reconstructed from former County Series plans and revised.

(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:

EXAMPLE: From sheet TQ 0529

1. Take the two letters preceding the sheet number.....TQ

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....252

3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291

4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.....252 291

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System'.

VEGETATION CLASSIFICATION

Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate dense, medium, open or scattered density of trees or scrub.
