

Made and published by the Director General of the Ordnance Survey, Southampton.

Made and published by the Director General of the Ordnance Survey, Southampton.

COMPILED DATA

Levelled.....1965
Boundaries.....Mar 1974

1:2500 scale * 1:1250 scale (photographically reduced)
(a) Surveyed.
(b) Reconstituted from former County Series plans and revised.
(c) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

VEGETATION CLASSIFICATION. Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

England & Wales
Geographical County
Admin County
County Borough
London Borough
County Districts
Civil Parish
Rural Borough
Borough Council & Ward Bdy
Co Const Bdy
Parity Constituency & Ward

Scotland
Geographical County
County Council
County of the City
Borough Bdy
District Bdy
Civil Parish
Borough Council & Ward Bdy
Co Const Bdy
Parity Constituency & Ward

Where the boundary of an Admin Co, County Borough or Co of City is coincident with that of a geographical county, the symbol for the latter is shown.
County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g.
Boundary merrings
B.B. Base of Bank
C.B. Centre of Bank
C.C.S. Centre of Covered Stream
C.D. Centre of Drain, etc.
C.R. Centre of Road, etc.
C.S. Centre of Stream, etc.
Def. Defaced
E.K. Edge of Kerb
F.F. Face of Fence
F.W. Face of Wall
R.H. Root of Hedge
S.R. Side of River, etc.

NATIONAL GRID REFERENCE
The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:-
1. Take the two letters preceding the sheet number.....TQ 058
2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....058
3. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291
4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing.....TQ 058291 6.
For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
