COMPILATION DATA

Levelled: 1965
Boundaries: Mar 1974

1:2500 scale
(b) Nov 1973

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.

Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

AREAS

Area measurement is to plan edge only. The number and area, in hectares (ha) and acres, is shown within each parcel of land. Enclosures or features joined for measurement of area. Limits of area within which individual parcels are not shown. To convert hectares to acres multiply by 2.471 05. To convert acres to hectares multiply by 0.404 69.

EXAMPLE: 43.57 ha 107 a 4-47

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:—

1. Take the two letters preceding the sheet number. EXAMPLE from sheet TQ 059

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin. 058

3. Take the east edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin. 291

4. The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing. TQ 0582916
