COMPILATION DATA

Levelled.....1965
Boundaries.....Aug 1973

1:2500 scale
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

1:1250 scale (photographically reduced)
(a) Surveyed.
(b) Reconstructed from former County Series plans and revised.
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lines, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of roads where shown is approximate.

SYMBOLS

Non-coniferous trees	Slopes	Site of antiquity
Coniferous trees	Cliff	Culvert
Surveilled areas	Cave entrance	Direction of water flow
Orchard areas	Road	Electricity pylon
Coppice, near	Buildings	Electricity Transmission Line
Scrub	Sleeping masonry	Triangulation station
Bracken	Roofed building	Traverse station (permanent)
Heath	Glasshouse	Bench mark
Rough grassland	Archway	Surface level
Reeds	Change of boundary marking	Revision point
	see AREAS notes	Revision point and bench mark coincident

VEGETATION CLASSIFICATION: Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrubs.

BOUNDARIES

England & Wales	Scotland
Geographical County	Geographical County
Admin. County	County Council
County Borough	County of the City
London Borough	Borough
County District	County District
Civil Parish	Civil Parish
Rural Borough	Borough
Borough Council & Ward	County Council
Co. Const. Bdy	Co. Const. Bdy
Partly Constituency & Ward	Partly Constituency & Ward

Where the boundary of an Admin. Co., County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown. County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g. .

AREAS

Area measurement is to plan edge only.
The number and area, in hectares (ha) and acres, is shown within each parcel of land.
EXAMPLE: 4267 parcel number
1.627ha area in hectares
4.47 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area
Limit of area within which individual parcels are not shown
To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—
EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number—TQ
2. Take the west edge of the grid square in which the point lies and read the figure opposite this line on the north or south margin—058
3. Take the south edge of the grid square in which the point lies and read the figure opposite this line on the east or west margin—291
4. The full six figure reference is given by writing first the letters, TQ 0582916, followed by the Easting and then by the Northing—TQ 0582916 389
